| Joe Coleman | 92% |
| Glen Wardrop | 100% |
| Thom Willard | 84% |
| Stephen Wink | 100% |
| Jonathan Wolfe | 100% |

SDS sheet access Test.....
 March 18 SDS(MSDS) Sheet Test – Why did we do it?
 I need to be sure that you have the proper tools for the job and that includes SDS sheets at the ready. Everyone responded and I am happy to report to John and Tim that we are compliant. The few that did not have them or the ability to email back to me communicated with me in a prompt manner.

Reviews CAN Sting!
 We all know how Yelp! Works and may have used it to get back at a business. We are no exception to that rule. Working in healthcare facilities, where emotions run high, we must be more responsible around the patients, staff and visitors to avoid such damage. Language must be respectful, to those around you and those just a wall away.. Your voice travels and your actions are seen by more than you might realize on the grounds of a facility. Cameras are all over as well. When you're wearing the AIMS name and you agitate someone, they may respond one way or another. We can't afford to damage any client relationship. Think before you speak and interact with anyone on a facility campus.

Field access to the support page on our website is controlled by a simple-format password. This will allow ease of access and quick links in our email for distribution. We request that you DO NOT SHARE the access password. This will avoid changing the password and the hassle associated with field staff getting things done in a timely manner on the web page. Keep our information OURS. Thank you.

AIMS FIELD SUPPORT Online

We are proud to announce that the online AIMS field support page is 90% complete (and still growing). You will have instant access from just about any internet device on the planet to our field documentation. From safety videos to announcements and SDS sheets. Please visit the page and try it out. Updates and new items will be added as often as needed.
